

APPENDIX TWO

Statement of contribution to jointly-authored paper:

Johnson, F., Hogg, J. & Daniel, B. (2010) 'Abuse and protection across the lifespan: Reviewing the literature', *Social Policy and Society*, 9(2), 291-304

The idea for the literature review reported in this paper came originally from my co-authors, who were also my employers at this time. I conducted the literature search and began to structure the material I had found, to draw out emergent themes and to refine the parameters of the review, in discussion with my co-authors. I wrote the first and the subsequent drafts of the paper. The co-authors commented on drafts and I incorporated their comments into the finished work.
